

“How your product gave me back my life”

Dear Friend,

If you saw me today, you would not believe that only a few months ago my life was practically over. It's not that I had any horrible disease or anything – it's just that I didn't have a life! But let me start at the beginning...

A year ago, I was tired. Not just after a late night or a particularly early morning – I was tired all the time. I went to work tired, came home tired, barely managed to stay awake during dinner and went to bed as early as 8pm. My wife had to deal with everything at home, the kids, bills, cleaning, finances – I just couldn't cope. I felt completely useless and was certain that before long my wife would take the kids and leave me.

Fortunately a buddy of mine (who's a nutritionist) introduced me to Fit4Life before it came to that. I was sceptical when he told me that taking this would get rid of my chronic fatigue, but since I had nothing to lose I decided to give it a try.

That was the best decision I made in my entire life.

A week after I started to take Fit4Life, I could spend some quiet quality time with the wife and children when I got home after work.

Another two weeks later I could get up in the morning without problems, put in a full day's work, and still take my wife dancing in the evening.

Now, two months later, I have more energy than I know what to do with. My wife and children are the ones who have to keep up with *me*! I'm spending so much time with the children that the TV hardly gets turned on any more – and after they've gone to bed, I've still got plenty of energy for an evening out (or in!) with my lovely wife. Our weekends are completely transformed. We can finally do things as a family – camping, going to the ball game, cycling, swimming in the ocean, you name it, we do it! And I've never felt better in all my life!

And work? I'm amazed to find that I'm not stressed any more! The pressure is still the same, but now I can cope with it, easily! My nutritionist buddy says that's because the adaptogens in your formula help my body cope with stress more easily. But I for one don't care *how* Fit4Life works – I'm just happy that it does. Especially since my boss is now so impressed with my work that I'm up for promotion – and a big, fat pay rise!

Fit4Life has, truly, given me back my life!

Sincerely,

James Powell
